SUMMARY

I design story-driven interactive environments that transform invisible systems into moments of shared wonder and meaningful connection. I am a ***Creative Technologist*** and ***multimedia artist*** pursuing an MFA in Music Technology / Creative Computing at the California Institute of the Arts.

My work explores how technology can translate abstraction—mathematical, psychological, and perceptual—into embodied experience. Through immersive installations and responsive media, I create spaces where audiences inhabit complexity rather than simply observe it, rendering hidden systems perceptible and emotionally resonant.

Across virtual and physical environments, I craft experiences where narrative and innovation converge—transforming interaction into lasting impact.

SKILLS

Programming Languages:

- Python
- Java
- JavaScript
- C++

Audio Engineering:

- ProTools
- Ableton
- MAX/ MSP
- Post/ Pre production

Game Development:

- Unreal Engine
- Blender

Visuals:

- TouchDesigner
- OpenFrameworks
- P5js

Computer Vision:

- OpenCV

WORK EXPERIENCE

Recording Engineer 2023.MAY-2025.JULY

University of California San Diego

- Expertise in multi-microphone recording setups and live mixing to broadcast standards.
- Managed **50+ audio and video projects** from capture through delivery.
- Led archival audio/video post-production.
- Collaborated with performers and technical teams to deliver seamless productions.

Technical Assistant 2023.MAY - 2025.JULY

University of California San Diego

- Strengthened technical adaptability across **PA systems, DMX-controlled lighting**, and **A/V signal routing**.
- Balanced sonic clarity and visual consistency in live event setups.
- Collaborated with production crews and designers to ensure smooth technical execution.

Advanced Audio Intern 2022.APRIL - 2025.JULY

KSDT Radio Station- UCSD

- Enhaced hands-one experience with DAW-based recording, mixing and mastering

Event Coordinator 2023.APRIL - 2024.JULY

University of California San Diego

- Planned and managed more than **50+ sold out events** across all campus venues

Student Ambassador 2023.APRIL - 2024.JULY

University of California San Diego

- Represented the department of Music to sponsors.
- Fostering connection between faculties, students to improve the program.

LANGUAGES

- English (Fluent)
- Chinese (Native)
- Taiwanese (Native)
- Japanese(Intermediate)

EDUCATION

Master of Fine Arts 2025.SEPT- 2027.MAY

California Institute of the Arts

Creative Computing/ Music Technology

Bachelor of Fine Arts 2020.SEPT- 2025.JUNE

University of California San Diego

Interdisciplinary Computing and the Arts
